c. Arizona Department of Revenue **Exhibit 3**
RV18001 – Datacenter Modernization – Phase 1

The Department of Revenue has a critical need to modernize their infrastructure and replace hardware that has already reached End-of-Life status. This PIJ will allow them to continue from Phase 0 of their Datacenter Modernization project. As part of Phase 0, the Agency started to transition to the new State datacenter.

d. Arizona Department of Child Safety (DCS) **Exhibit 4**
CH17002 – CHILDS Replacement Project – Informational Only

As part of the core functions, the Arizona Department of Child Safety (DCS) caseworkers spend time to ensure the safety of children, strengthen families, and achieve permanency. The current system used for case management, federal reporting, and provider management is the Children's Information Library and Data Source, known as CHILDS. CHILDS was originally implemented in 1997, and due to the age, complexity, and inefficiencies, DCS is unable to provide the best support for the caseworkers or the children and families that they serve.
